

Qualified Hardware Experts

In addition to our full line of commercial grade finish hardware, Morris Black offers the services of Certified Architectural Hardware Consultants (AHC) to assist you in the interpretation of door and hardware requirements as established by local building codes and ADA.

Our AHCs can prepare professional architectural specifications for your building project, or assist you in their interpretation. Plus, our in-house locksmith ensures prompt service, either on-site or at your facility.

Finish Hardware and Access Control

Morris Black proudly sells products from the following manufacturers:

- Ingersoll-Rand: Schlage, LCN, VonDuprin, Glynn Johnson, Falcon, Locknetics, Monarch and DorOMatic
- Hager
- Dorma
- Stanley Security Solutions
- Rockwood

The sales staff at Morris Black offers experienced advice to help find solutions for door and hardware problems, regardless of manufacturer or product type.

The Right Tools for the Job

Morris Black Doors and Hardware offers industrial and institutional building owners, architects and contractors a single-source for steel and wood doors, architectural finish hardware and electrified access control systems. We have the right combination of products to handle any opening requirements you might have and, if you prefer, we can provide complete, "turn-key" installation as well.

As a regional distributor of hollow metal doors and frames, Morris Black stocks a large inventory at our Lehigh Valley warehouse, and is able to provide doors for any size order at very competitive prices.

Custom modification services are also offered through Morris Black's fully-equipped, WHI approved modification facility:

- Modification of doors and frames
- Assembly of transoms, sidelights and borrowed lite windows
- Installation of louvers, glass lights, panic devices, closers and other finish hardware.

Morris Black also provides fire-rated and non-rated commercial wood doors in a wide range of sizes, veneers and plastic laminates, pre-machined and pre-fit for hollow metal frames.
